

Kids' Birdwatching Week

– Observation sheet

■ You can use this table to record the signs of nesting you observe on your trip.

	Tick when observed	More about the observation(s)
 A bird sings		
 A bird gathers or carries nest material (e.g. twigs, grass, moss)		
 A bird builds a nest		
 A bird often goes to a possible nest site (e.g. under the eaves)		
 A bird incubates (sits still) on its nest		
 A bird carries food (e.g. worms)		
 A bird warns or attacks towards a predator or a person (e.g. a crow)		
 Sounds of chicks from a nest or a nest box		
 Young birds that have already left their nest		

Other notes (for example, other nature observations you make)
